

# Community Consulting Partnership Newsletter

To: The Community Consulting Partnership Community

From: CCP Keepers of the Flame

Re: CCP Newsletter Vol. #2

## Cycle Update

CCP has had a wonderful twelfth year. Thirty-five volunteer consultants and six dedicated senior consultants have served the [Environmental Coalition of South Seattle](#), the [People's Memorial Association](#), [Yesler Community Center](#), the [Northwest Ecobuilding Guild](#) and [Skandia Folkdance Society](#). We are continually amazed at the good work Seattle-area non-profits are doing, and are excited about the connections CCP makes between learners, the consulting process, and these visionary organizations.

## CCP Needs

Our next cycle is right around the corner! We have the following needs and appreciate any help you can give:

- **Clients:** If you know a not-for-profit organization that could use our services, please encourage have them check out our website [www.ccpseattle.org](http://www.ccpseattle.org). They can sign up if it sounds right, and then we/CCP will follow up and begin the process to see if it is a good match.
- **Volunteers:** Tell your friends, family and colleagues about the wonderful experience of being a CCP volunteer. They can find out more and sign up here.
- **Space:** We are always looking for inexpensive (or free!) space to hold our orientation and three Saturday community learning sessions. If you have a lead, please email us at [ccpseattle@gmail.com](mailto:ccpseattle@gmail.com).

## Did you know?

- Four of the original CCP founders are still active in CCP over 12 years later! They are: Geoff Bellman, Bud Orr, Kathleen Ryan and Pat Vivian.
- Steve Cato, one of the CCP "Keepers the Flame", is busy building a teardrop trailer!
